any amount (!!!)

SOCIAL DISTANCING TIPS & TRICKS

The goal of social distancing is to slow down the outbreak in order to reduce the chance of infection among high-risk populations and the burden on health care systems and workers. Experts describe this as "flattening the curve," which refers to the potential success of measures to prevent surges in illness that could overwhelm health care systems.

- John Hopkins University

Dear friend,

As we all continue to navigate the effects of COVID-19, the restaurant industry is devastated by ongoing lay-offs and closures, some indefinitely.

While restaurants remain closed for dine-in service, many continue to offer take-out options that will support the business until the outbreak subsides.

If you are dreaming of the day when life returns to normal; when you can enjoy a meal out with your family and friends, then please consider supporting us and all of your beloved restaurants in this time of crisis. Many businesses will close their doors forever, unable to withstand a prolonged period of closure and loss of income.

In our own effort to stay afloat, we kindly ask for your support by purchasing take-out meals, merchandise, gift cards, and by spreading the word in your communities.

We are determined to re-open better than ever, but your support will ensure a speedy recovery in these uncertain times.

Thank you.

Wash Your Hands

Treat every hand like its their birthday.

Hangout Online

Host a video chatroom! Play games or download a browser extension that allow you to watch videos or movies simultaneously with friends.

You Can Still Go Outside

Take a walk in the park or go for a hike. Your dog will appreciate it. Just make sure to keep a 6 ft gap between you and others.

Be Kind

Remember that these measures are meant to help yourself and those around you.
